

BagDrop Presentation Script

Presenter Guide for 4 Team Members

□ TEAM INTRODUCTION

Before we begin, let's introduce our team:

Role	Name	Slides Assigned
Presenter 1	[Member 1 Name]	Slides 1-4 (Intro, Problem, Solution, Value)
Presenter 2	[Member 2 Name]	Slides 5-7 (Audience, Features, How It Works)
Presenter 3	[Member 3 Name]	Slides 8-11 (Tech, Team, Marketing, Revenue)
Presenter 4	[Member 4 Name]	Slides 12-14 (Exit, Roadmap, Thank You)

□ OPENING SCRIPT (Before Slide 1)

[All 4 members stand together]

Member 1: "Good [morning/afternoon], everyone. We are Team [Your Team Name], and today we're excited to present BagDrop - a smart solution for travelers."

Member 1: "Let me quickly introduce my teammates:" - "[Member 2] - our product expert" - "[Member 3] - handling tech and business strategy"

- "[Member 4] - covering our future plans" - "And I'm [Member 1], I'll kick things off."

Member 1: "Let's begin!"

PRESENTER 1: [Member 1 Name]

Slides 1-4

□ SLIDE 1: TITLE SLIDE

Content on Slide:

BAGDROP
SMART LUGGAGE STORAGE & DELIVERY
Secure. Contactless. Affordable.

Script: > “BagDrop is a smart luggage storage and delivery platform. Our mission is simple: **Secure. Contactless. Affordable** luggage storage for every traveler in India.”

“Have you ever been stuck with heavy bags while waiting for a train or flight? That’s exactly the problem we’re solving.”

[Pause, click to next slide]

□ SLIDE 2: THE PROBLEM

Content on Slide:

THE PROBLEM
Travelers face a daily struggle with luggage

- EARLY CHECKOUT, LATE DEPARTURE
Hotels force checkout but flights are hours away
- HEAVY BAGS, RUINED PLANS
Dragging luggage kills the travel experience
- CLOAKROOMS? OVERPRICED
Railway lockers are expensive, crowded, or broken
- FORGOT YOUR BAG?
No easy way to retrieve forgotten luggage

"70% of travelers have faced luggage hassles during their trip"

Script: > “Let’s talk about the problem. Travelers face four major pain points:”

“**First** – Early checkout, late departure. Your hotel kicks you out at noon, but your flight is at 8 PM. What do you do with your bags for 8 hours?”

“**Second** – Heavy bags ruin your plans. You can’t explore a city when you’re dragging a 20-kilo suitcase behind you.”

“Third – Cloakrooms are overpriced and unreliable. Railway lockers cost ₹100+ per day, are often full, or simply don’t work.”

“Fourth – Forgotten luggage. Left your bag at a hotel? There’s no easy way to get it back.”

“Studies show that **70% of travelers** have faced luggage hassles. This is a massive, everyday problem.”

[Click to next slide]

▣ **SLIDE 3: THE SOLUTION**

Content on Slide:

THE SOLUTION

Store your bags anywhere. Pick them up anytime.

| NEIGHBORHOOD NETWORK

We partner with verified local shops, cafes & hotels as storage points

| INSTANT ACCESS

Book via app, drop your bag, get a secure OTP or NFC token

| FORGOTTEN LUGGAGE? DELIVERED

Left something behind? We'll courier it to you anywhere in India

Script: > “Introducing BagDrop – the solution to all these problems.”

“Store your bags anywhere. Pick them up anytime.”

“How does it work?”

“First – We’ve built a neighborhood network. We partner with verified local shops, cafes, and hotels near transit hubs. These become our storage points.”

“Second – Instant access. Open our app, find a nearby location, book a slot, drop your bag, and get a secure OTP or NFC token. It takes less than 2 minutes.”

“Third – Forgotten luggage? No problem. We’ll courier it to you anywhere in India. This is something no one else offers.”

[Click to next slide]

□ SLIDE 4: WHY CHOOSE US?

Content on Slide:

WHY CHOOSE US?

AFFORDABLE	FLEXIBLE PAYMENTS
Starting at Rs.50/6hrs	UPI, Cards, NFC
SECURE ACCESS	DELIVERY BACKUP
OTP & NFC tokens	Forgot bag? We deliver
PAN-INDIA NETWORK	24/7 SUPPORT
Growing across cities	Help when you need it

Script: > “Why should travelers choose BagDrop over alternatives?”

“**Affordable** – We start at just ₹50 for 6 hours. Compare that to ₹100+ at railway cloakrooms.”

“**Flexible Payments** – UPI, cards, NFC – pay however you want.”

“**Secure Access** – Every retrieval requires OTP or NFC verification. Your bags are safe.”

“**Delivery Backup** – This is our unique selling point. If you forget your bag, we courier it to you.”

“**Pan-India Network** – We’re building storage points across all major cities.”

“**24/7 Support** – Our team is always available to help.”

“Now, I’ll hand over to [Member 2] to talk about our target audience and product features.”

[Member 2 takes over]

PRESENTER 2: [Member 2 Name]

Slides 5-7

□ SLIDE 5: TARGET AUDIENCE

Content on Slide:

TARGET AUDIENCE

- Tourists & Backpackers
- Train & Bus Travelers
- Students & Daily Commuters
- Business Travelers
- Anyone with forgotten luggage needs

Script: > “Thank you, [Member 1]. Let me tell you who we’re building this for.”

“Our primary audience includes:”

“**Tourists and backpackers** – They explore cities and need a safe place to store bags while sightseeing.”

“**Train and bus travelers** – Early arrivals, late departures – they need storage options.”

“**Students and commuters** – Students traveling between cities often carry heavy bags.”

“**Business travelers** – Professionals who need to move light between meetings.”

“And finally, **anyone who’s ever forgotten their luggage** somewhere and struggled to get it back.”

“That’s a massive market – millions of travelers every single day.”

[Click to next slide]

□ SLIDE 6: KEY FEATURES

Content on Slide:

KEY FEATURES

[Yellow] APP BOOKING & MAP VIEW [Black] SELF-SERVICE KIOSK [Yellow] NFC & QR TOKEN

[Black] REAL-TIME NOTIFICATIONS [Yellow] DELIVERY SUPPORT [Black] 24/7 SUPPORT

Script: > “Let me walk you through our key features.”

“**App Booking with Map View** – Find the nearest BagDrop location on a map, check availability, and book instantly.”

“Self-Service Kiosks – At high-traffic locations like railway stations, we’ll have kiosks where you can drop bags without human interaction.”

“NFC & QR Tokens – Secure, contactless retrieval using digital tokens.”

“Real-Time Notifications – Get alerts when your booking is confirmed, when your bag is stored, and when it’s retrieved.”

“Delivery Support – Our signature feature. Forgotten bags delivered to your doorstep.”

“24/7 Support – Call or chat with us anytime.”

▢ SLIDE 7: HOW IT WORKS

Content on Slide:

HOW IT WORKS

5 simple steps to freedom from your luggage

[01 FIND]	[02 BOOK]	[03 DROP]	[04 RETRIEVE]	[05 DELIVER]
Open app	Select slot	Leave bags	Show token	Forgot bag?
Locate	Pay via UPI	Get OTP/NFC	Collect bags	We courier it
BagDrop	or Card	token	Travel light!	to you!

"Average drop time: Under 2 minutes"

Script: > “Here’s how BagDrop works in 5 simple steps.”

“Step 1: FIND – Open the BagDrop app and find the nearest storage location on the map.”

“Step 2: BOOK – Select your time slot and pay using UPI, card, or NFC.”

“Step 3: DROP – Go to the location, drop your bags, and receive an OTP or NFC token.”

“Step 4: RETRIEVE – When you’re ready, return to the location, show your token, and collect your bags.”

“Step 5: DELIVER – Forgot your bag? No problem. Call our support, and we’ll courier it to you anywhere in India.”

“The whole process takes **under 2 minutes**. It’s that simple.”

“Now, [Member 3] will cover our technology and business model.”

[Member 3 takes over]

PRESENTER 3: [Member 3 Name]

Slides 8-11

□ SLIDE 8: TECHNOLOGY

Content on Slide:

TECHNOLOGY

Built for speed, security & scale

[PAYMENTS]	[SECURITY]	[PLATFORM]
UPI (GPay, PhonePe)	OTP Verification	iOS & Android App
Credit & Debit Cards	NFC Token Access	Self-Service Kiosks
NFC Contactless	End-to-End Encryption	Partner Dashboard
Wallet Integration	Verified Partners	Real-time Analytics

Script: > “Thanks, [Member 2]. Let me talk about the technology behind BagDrop.”

“We’ve built our platform for **speed, security, and scale**.”

“**Payments** – We support all major payment methods: UPI apps like GPay and PhonePe, credit and debit cards, NFC contactless, and wallet integrations.”

“**Security** – Every transaction is protected by OTP verification, NFC token access, and end-to-end encryption. We also verify all our partner locations.”

“**Platform** – We have a native iOS and Android app, self-service kiosks for high-traffic areas, a partner dashboard for shop owners, and real-time analytics for operations.”

[Click to next slide]

□ SLIDE 9: TEAM STRUCTURE

Content on Slide:

TEAM STRUCTURE

CEO / FOUNDER

Overall strategy & vision

CTO

App & platform technology

OPERATIONS MANAGER

Onboarding & quality control

LOGISTICS COORDINATOR

Delivery partner management

CUSTOMER SUPPORT

Phone & app support team

Script: > “Here’s our team structure.”

“**CEO/Founder** – Responsible for overall strategy and vision. This role drives the company forward.”

“**CTO** – Leads app and platform development. They ensure the technology is robust and scalable.”

“**Operations Manager** – Handles partner onboarding and quality control. They make sure every storage location meets our standards.”

“**Logistics Coordinator** – Manages our delivery partner network for the forgotten luggage feature.”

“**Customer Support** – Our frontline team, available via phone and app to help users.”

“Together, we have the skills to build, scale, and operate BagDrop successfully.”

[Click to next slide]

□ SLIDE 10: GO-TO-MARKET

Content on Slide:

GO-TO-MARKET

Multi-channel strategy to reach travelers

[DIGITAL ADS]

Instagram, Facebook
& Google targeting

[INFLUENCERS]

Travel vloggers
for authentic reach

[TRANSIT HUBS]

Flyers & kiosks at
stations & airports

[REFERRAL PROGRAM]

Rs.50 credit for every friend

[PARTNER ONBOARDING]

Commission-based model for shops

Script: > “Our go-to-market strategy is multi-channel.”

“**Digital Ads** – Targeted campaigns on Instagram, Facebook, and Google reaching travelers.”

“**Influencer Partnerships** – We’ll partner with travel vloggers and content creators for authentic, organic reach.”

“**Transit Hub Presence** – Physical flyers and kiosks at railway stations, airports, and bus stands.”

“**Referral Program** – Users get ₹50 credit for every friend they refer.”

“**Partner Onboarding** – Shop owners earn commission on every bag stored. It’s a win-win.”

[Click to next slide]

□ SLIDE 11: REVENUE MODEL

Content on Slide:

REVENUE MODEL

REVENUE STREAMS

- Storage fees: Rs.50 per booking
- Delivery arrangement fees
- NFC premium token fees
- Kiosk advertisement revenue

7,50,000

ESTIMATED MONTHLY EARNINGS

Script: > “Let’s talk revenue.”

“We have four revenue streams:”

“**Storage fees** – ₹50 per booking. With 30,000 bookings and a 30% commission, that’s ₹4,50,000.”

“**Delivery fees** – ₹300 per arrangement with 20% commission adds ₹3,00,000.”

“**NFC premium tokens** – Optional premium feature for frequent users.”

“**Kiosk advertisements** – Ad revenue from our self-service kiosks.”

“In total, we estimate **₹7,50,000 in monthly earnings** as we scale.”

“Now, [Member 4] will close with our exit strategy and future roadmap.”

[Member 4 takes over]

PRESENTER 4: [Member 4 Name]

Slides 12-14

□ SLIDE 12: EXIT STRATEGY

Content on Slide:

EXIT STRATEGY

- Acquisition by travel/logistics company
- Merge with major courier platform
- Technology IP licensing/sale
- Expansion to metro & international markets

Script: > “Thank you, [Member 3]. Let me share our exit strategy.”

“We see four potential exit paths:”

“**Acquisition** – Companies like MakeMyTrip, Ola, or IRCTC could acquire us to add luggage storage to their offerings.”

“**Merger** – We could merge with a courier platform like Delhivery or Dunzo to combine delivery capabilities.”

“**IP Licensing** – Our technology and partner network could be licensed to hospitality or travel companies.”

“**Expansion** – Scale nationally and then internationally to Southeast Asia, Europe, and beyond.”

[Click to next slide]

▣ SLIDE 13: FUTURE ROADMAP

Content on Slide:

FUTURE ROADMAP

[Q1: 50+ CITIES] [Q2: AIRPORTS] [Q3: SUBSCRIPTIONS] [Q4: SMART LOCKERS]

VISION: Become India's #1 luggage storage network with smart locker integrations across all major transit hubs.

Script: > "Here's our roadmap for the next year."

"Q1 - Expand to 50+ cities across India."

"Q2 - Launch at major airports with dedicated kiosks."

"Q3 - Introduce subscription plans for frequent travelers."

"Q4 - Deploy smart locker integrations at key locations."

"Our ultimate **vision** is to become India's #1 luggage storage network with smart lockers at every major transit hub."

THANK YOU

QUESTIONS & DISCUSSION

[Your Email] | [Your Phone]

www.bagdrop.in

Script: > "And with that, we conclude our presentation."

"We are Team [Your Team Name], and we just presented **BagDrop** - Smart Luggage Storage & Delivery."

[All 4 members return to the front]

Member 4: "Thank you for your time. We're now happy to take any questions."

□ Q&A TIPS

Question Type	Who Answers
Problem/Solution	Member 1
Features/UX	Member 2
Tech/Business	Member 3
Future/Vision	Member 4

Common Questions to Prepare:

1. "How do you ensure bags are safe?"
 - Answer: Verified partners, OTP/NFC tokens, insurance coverage
2. "What's your competitive advantage?"
 - Answer: Delivery feature, low pricing, app convenience
3. "How do you onboard partner shops?"
 - Answer: Commission model, verification process, training kit
4. "What's your initial investment requirement?"
 - Answer: App development, marketing, kiosk setup
5. "How do you handle disputes or lost luggage?"
 - Answer: Partner insurance, 24/7 support, refund policy

□ TIMING GUIDE

Section	Time
Opening + Slide 1	1 min
Slides 2-4 (Member 1)	4 min
Slides 5-7 (Member 2)	4 min
Slides 8-11 (Member 3)	5 min
Slides 12-14 (Member 4)	3 min
Q&A	3 min
TOTAL	20 min

□ PRE-PRESENTATION CHECKLIST

- ☐ All 4 members know their slides
- ☐ Laptop/projector tested

- ☐ Presentation file backed up
- ☐ Timer set for Q&A
- ☐ Water bottles ready
- ☐ Team member names on slide 1 (if needed)
- ☐ Contact info updated on final slide

Good luck with your presentation! ☐
